

Labour Import Update From Admin

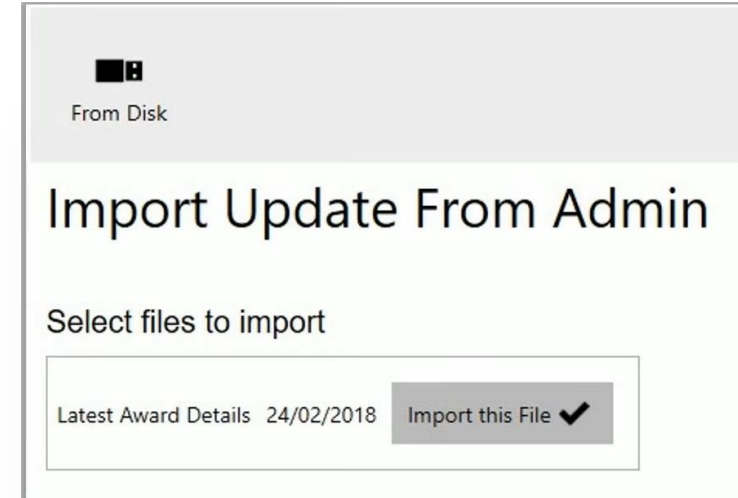

This is the manual step to import
new employees or Award updates
from Abcom Payroll

Labour Import Update From Admin

Labour Import Update From Admin:

- This is the manual step to import new employees or Award updates from Abcom Payroll.
- You would probably run this step if you urgently needed to import a new employee for timeclock or rostering purposes
- These updates are automatically detected and updated as part of the daily open or close checklist.
- If a payroll update has been released by your payroll administrator, it will be available here for an on-demand import.
- Click on “Import this File” to install the update.
- It may take around 1-2 minutes to update.
